

Tautulli

[Tautulli](#) is a 3rd party application that you can run alongside your Plex Media Server to monitor activity and track various statistics. Most importantly, these statistics include what has been watched, who watched it, when and where they watched it, and how it was watched. All statistics are presented in a nice and clean interface with many tables and graphs.

The screenshot shows the Tautulli web interface. At the top left is the Tautulli logo. On the top right, there are icons for search, home, and a "Libraries" link. Below the navigation bar, the "ACTIVITY" section shows "Nothing is currently being played." The "WATCH STATISTICS" section has tabs for "Play Count", "Play Duration", "Last", "30", and "days". There are four main data panels: 1. "MOST WATCHED MOVIES" (PLAYS): A Trip to Infinity (1), Supercell (1), A Man Called Otto (1), Black Panther: Wakanda Forever (1), Puss in Boots: The Last Wish (1). 2. "MOST POPULAR MOVIES" (USERS): A Trip to Infinity (1), Supercell (1), A Man Called Otto (1), Black Panther: Wakanda Forever (1), Puss in Boots: The Last Wish (1). 3. "MOST WATCHED TV SHOWS" (PLAYS): NewsRadio (66), Killjoys (50), Ancient Aliens (44), UFO Witness (40), Under the Dome (37). 4. "MOST POPULAR TV SHOWS" (USERS): The Mandalorian (3), Ancient Aliens (2), UFO Witness (2), Young Sheldon (2), Logan's Run (2). Each panel includes a small image of the top item and a list of items with their respective counts.
